What Is ISM?

Institute for Supply Management® (ISM®) is the world's leading not-for-profit supply association, and the organization of choice for supply management professionals across industries. As the standard bearer for the profession, ISM works diligently to create standards of excellence and to advance careers and improve organizational success.

ISM Membership

Shift Your Career into Top Gear

To be a successful supply management professional, you need to acquire specialized knowledge and skills to stand out from your peers. Membership from Institute for Supply Management® (ISM®) is an invaluable resource that can further your professional goals as you move through the industry and grow in your career.

ISM has specialized in professional development for over 100 years. That is why supply management leaders and practitioners trust our expertise and why they continue to look to us to advance the profession.

Membership is a Powerful Tool

Powerhouse employment website Monster.com strongly recommends that professionals join an association to access vital career-enhancing benefits as valuable resources and exclusive networking opportunities. By joining ISM, you will become part of a professional community, 50,000 members strong, and open the door to the positive outcomes an ISM membership can have on your career.

And while an ISM membership is not required to take advantage of most of what we offer, it does have exclusive benefits. When you see this symbol ●, it indicates a members only benefit.

How ISM Can Help Boost Your Career

As the most trusted supply management association in the world, ISM offers products and tools designed to help you achieve a high level of proficiency in competencies that provide a broad base of supply chain knowledge.

ISM Mastery Model

ISM MASTERY MODEL

The ISM Mastery Model™ allows you to create a roadmap to success. It is a unique educational resource to help you as a supply management professional determine where you have critical skill gaps. The model, accessible on the ISM website, identifies 16 key competencies and their associated sub-competencies that you need to be proficient in, depending on your position, your current and desired experience level and your projected career path.

ISM Certifications

In a highly competitive world, an ISM certification is a mark of excellence. It sets you apart from your peers as an expert in critical areas of global supply chain management such as sustainability, strategic sourcing and forecasting, risk and compliance and supplier diversity. It demonstrates to your organization's leadership and to potential employers your dedication to mastering your profession. An ISM certification is highly desirable if you are serious about advancing your career.
